Experience

Senior Consultant, Product Owner & UX Designer

Valtech Mobility | 2018 – Present

- Product Owner (2 years) and UX Designer (6+ years) for connected mobility products for premium automotive brands.
- Delivered in-car services, expert tools and mobility services for OEMs and startups (see Selected Projects).

Co-Founder & CEO

2gether App | 2023 – 2026 (alongside Valtech Mobility)

- Co-founded and led a startup; released a native iOS and Android social media app.
- Owned the product end to end, from concept and design to release.

IT Project Manager

Audi AG | 2012 – 2018

- Managed cross-functional teams delivering connected-car services.

IT Consultant

WK IT | 2011 – 2012

- Drove internal restructuring and supported strategic purchasing.

Selected Projects

InCar Services, Valtech Mobility

- Connected-car services for OEMs including Volkswagen, Audi, Lamborghini, Bentley, Renault and Nissan.
- Smart assistant for van drivers that learns habits and preferences.
- EV service to reserve parking and pay for parking or charging from the car.

Expert Tools & Mobility Services, Valtech Mobility

- UX for a truck manufacturer's workshop tool: inspections, vehicle analysis and step-by-step repair manuals, usable with gloves and clear for fleet managers.
- UI design for autonomous-vehicle services for startups.

2gether, social app

- Co-founded and led the startup; released a native iOS and Android app, end to end.

Side Project

Innensicht, iOS self-reflection app (private project)

- Designed in Figma and built end to end with Claude Code (React Native), solo in a single afternoon, then submitted to App Store review.

- Swipeable deck of 37 "inner parts" cards, three-stage emotion wheel, private on-device history.

Education

B.A. Business Administration, University of Applied Sciences Landshut | 2007 – 2011 |
Grade 1.7
